

Rural PREP Grand Rounds

Title: Adverse Childhood Experiences

Presenter: Dr. Neal Bowen, Hidalgo Medical Center, Hidalgo, New Mexico

Date: March 22nd, 2018

Time: 11:00 am to 12:00 pm (MDT)

Pre-Session Activity

Participants should print and answer the pre-session readiness questions (bring your answers to the live session on March 22nd).

1. According to the Talbot, Szlozek, and Ziller (2016) study, ACEs are common among rural adult residents, with exposure to at least one ACE reported for
 - a. Over 15% of all respondents in the study
 - b. Over 25% of all respondents in the study
 - c. Over 50% of all respondents in the study
 - d. Over 60% of all respondents in the study
2. According to the Talbot, Szlozek, and Ziller (2016) study, _____ of respondents reported that they had been exposed to four or more ACEs.
 - a. 5.8%
 - b. 15.4%
 - c. 25.8%
 - d. 35.4%
3. Recommended strategies for strengthening rural capacity to respond to ACEs include
 - a. Seeking grant funding for improvement projects with ACE-focused components
 - b. Forging ACE-focused interest groups
 - c. Collaborating with trusted local organizations to promote ACE-focused initiatives
 - d. All of the above

4. (True or False) According to Dr. Nadine Burke Harris (2014), exposure to ‘high doses of adversity’, even in the absence of high-risk behavior, increases the likelihood of developing heart disease or cancer.
5. Dr. Nadine Burke Harris advocates a move for treating ACEs as a _____
 - a. Public health issue
 - b. Social issue
 - c. Mental health issue
