

## Grand Rounds Presentation Outline

**Title:** Good Fences

**Presenter:** Randall Longenecker MD, Professor of Family Medicine and Assistant Dean Rural and Underserved Programs, Ohio University Heritage College of Osteopathic Medicine

**Date:** August 23, 2018

**Time:** 1 PM Eastern

### Pre-Session Activity

Which of the following are boundary crossings and which are boundary violations? Why and how might it be different in rural practice?

1. A family physician calls in a script for his son's acne medication
2. A female physician has a consensual sexual affair with one of her male patients
3. A hospital-employed physician accepts a quilt from an Amish family in payment for services rendered
4. A family physician offers their employees free well-adult exams, including a complete physical.

Bring a print-out of your responses to the Grand Rounds event. Also, bring a case in mind of a potential boundary violation you have observed in clinical practice, even as a student.
